

EXPLANATION

- | |
|------------------------|
| Aluminum |
| Arsenic |
| Iron |
| Manganese |
| Total Dissolved Solids |
- Known Private Wells
- ⊕ Private Well Chosen for Sampling
- ⊕ Landsburg Monitoring Wells (LMW-_)
- Houses

All concentrations in µg/L except TDS which is in mg/L.

Bold type indicates exceedance of regulatory criteria.

* TDS is not a contaminant of potential concern (COPC) for private wells, but is shown for comparative purposes only.

NS – Not sampled

J – Indicates an estimated value.
